

THE SECOND AMERICAN REVOLUTION HAS BEGUN

GOD BLESS DONALD TRUMP!

As a U.S. Marine and CIA clandestine operations officer (spy), Robert David Steele has long sought justice and truth at all costs, even at the expense of his personal safety and reputation. Today, as the CEO of [The Earth Intelligence Network](#) and publisher of Phi Beta Iota Public Intelligence Blog (“the truth at any cost lowers all others costs”), Robert is a “one stop shop” for reliable public information about everything that matters: threats, policies, costs. His life’s work is also online for free at [RobertDavidSteele.com](#). Mr. Steele is as committed as ever to exposing corruption and injustice – much of it at the top levels of government.

Without a doubt, Steele’s 18 years of experience working in the U.S. intelligence community, along with an additional 20 years in commercial intelligence and training, have sharpened his “B.S. meter.” And now, with the top-level shenanigans he’s seeing, Robert David Steele’s “B.S. meter” is off the charts.

Take the Jeffrey Epstein investigation as an example: was he really making millions as a hedge fund manager or was he just running a blackmail scheme under the cover of a hedge fund? Steele, a former spy with counterintelligence experience, called out Epstein and Maxwell years ago, saying very clearly that this was a Mossad pedophilia entrapment operation. More recently, he has pointed out that the CIA and FBI have clearly been complicit from day one and that there are 49 other Mossad pedophilia entrapment operations, one in each state of the union, that are allowed by the FBI to operate with impunity, blackmailing governors and state legislators.

As Robert David Steele sees it, this is a prime opportunity for Trump to really drain the swamp of the most abhorrent criminals in the government. If the President can leverage the public's peak disgust at the government, he can use the Epstein scandal to completely restructure the CIA, FBI, and other enemies of the public interest.

Steele, a huge proponent of truth and reconciliation, has proposed many times that the President offer a presidential pardon to each and every person who has been blackmailed by the Mossad (or anyone else), contingent on them giving up their blackmailers by name. The blackmailers, not those being blackmailed, are the key to draining the swamp, in Steele's view.

Steele has a plan no one wants to talk about because it is the only one that would work while also being compassionate. He's doing everything he can to encourage President Trump to take action now. Unfortunately, it appears that there may be a Zionist contingent that's blocking Steele's communications with the White House, as evidenced by the obstruction of two of Steele's USPS packages.

Steele isn't giving up, and he's currently resending his important missives to the President under separate cover. In essence, Robert David Steele wants Trump to know that he's at risk of losing in 2020 because voters in his political base are angry about the obvious influence of Zionists throughout the government, as well as many broken promises, including an end to U.S. military operations in the Middle East and 9/11 disclosure.

Mr. Steele wants to inform Trump and the voters of the 43 traitorous strikes the Zionist cabal has made against America, which he has documented in meticulous detail in his Public Intelligence Blog. From the unprovoked attack on the USS Liberty to 9/11 and a plethora of other terrorist acts, Robert David Steele is leveraging the truth – documented truth – in his war against those who would tear at the foundations of the U.S.A.

In his posting about Zionist strike #43, Steele uncovers their plot to control the White House – and Mr. Steele’s concern that the President needs to do more to put an end to the Zionists’ machinations (not to be confused with the Jews who uphold the Constitution).

Robert David Steele wants to warn Trump that he’s losing a portion of his base by acting too slowly to condemn and control the anti-American, anti-Constitution Zionist movement. He points out that the Zionists have been bragging in New York City recently that they control 27 U.S. states and are confident of capturing the rest.

Indeed, as Mr. Steele points out, 27 states have made it a felony to speak freely about the need to boycott Zionist Israel. According to Robert David Steele, the President has been lied to by National Security Advisor John Bolton and the CIA, and Trump could lose key states like Florida, Pennsylvania, and Texas in the 2020 election if he doesn’t address the imminent and permanent threats to our freedom.

Zionist Israel, not China, not Iran, and not Russia, is the main enemy of the U.S. Constitution and the rights of our citizens under that Constitution as amended, Steele says, with patriotic passion.

Moreover, while it might seem counterintuitive, Robert David Steele actually views the failure of the CIA and NSA in Venezuela as one of the most positive things to happen in recent memory. That’s because it opens up the possibility of presidential-level recognition of both their duplicity – they lie to the President every day – and the urgent need for change.

Few people have the deep knowledge that Mr. Steele has in this regard, as he’s served in Venezuela, grew up in Colombia, and was the founding senior civilian of the Marine Corps Intelligence Activity (MCIA). According to Robert David Steele, the idea of attacking or occupying Venezuela is an illustration of how complicit and unethical the U.S. think tanks and mainstream media are, and of the lack of integrity in the Departments of State and Defense.

Steele wants the President to know what the Department of Defense won't tell him: that Caracas, the capital of Venezuela, is basically impenetrable in terms of topography and has zero cross-country mobility to speak of. Besides, any invasion attempt would be thwarted by the Russians, who would use electromagnetic warfare to neutralize U.S. Navy ships and blind or silence U.S. satellites.

In his ongoing efforts to remedy these and other pressing issues facing the nation today, Robert David Steele has three recommendations for the President that he needs to take action on immediately:

- Eliminate the Office of the Director of National Intelligence, eliminate a substantial portion of each of the technical agencies (NSA, National Reconnaissance Office, National Geospatial Agency), and use the savings to fund the wall and other needed infrastructure.
- Reinstate the position of Director of Central Intelligence, reduce the size of the CIA, and establish Directorates for Signals, Imagery, and Geospatial Intelligence in the smaller CIA.
- Create an Open-Source Agency to do what the FBI is incapable of doing: quickly and inexpensively expose networks of traitors and criminals in the government and elsewhere.

If Robert David Steele prevails in his petitions to the President, heads will indeed roll and the swamp will be fully drained of those who would destroy America. Mr. Steele will never stop in his quest for freedom and education – America needs him now more than ever.
